Review iBudget Documents	Delima Justine	WBS & Project Proposal, API Endpoints Changes	December 26, 2025	December 26, 2025		Done	Low

Sprint Description:

This sprint prioritizes the last core feature of the application; custom categories for users. In addition, this sprint also added responsiveness and enhancement of features.

Sprint Retrospective:

- What went well?
 - The tasks were done on-time by the team.
 - The team is done with the core features of the web application.
 - Test matrix creation is currently in progress by the tester.
 - Updated the initial documents of the iBudget.
 - **Authentication improvement:** Users cannot log in unless their email is verified
 - **CRUD operations completed** for custom categories.
 - **Bonzi Chatbot enhancements:**
 - Bonzi now supports speech-to-text and text-to-speech
 - Bonzi now supports web search capabilities
 - Bonzi can display charts
- What could be improved?
 - There is a need to check for responsiveness in other pages, there are still pages that are not responsive for other devices.
- What needs to be done?
 - For the last sprint, our aim is to:
 - Continue the **testing** and **test matrix documentation**
 - Check and add responsiveness across pages
 - Implement suggestions for the **reports page**.
 - Enhancement of features.
