Sprint Description:

This sprint focused on selecting the appropriate web host for our project and setting up the project repository. We decided to use **Hostinger** based on our previous experience and familiarity with the platform.

Sprint Retrospective:

- What went well?
    - The team was cooperative and the deadlines were followed on time.
    - We chose **Hostinger** as our web host prior to the past experience we have used.
    - We already set up our web hook.
    - Added a coming soon page to our web application.

- What could be improved?
    - We still need to finalize the complete tech stack and define the backend architecture for our web application.

- What needs to be done?
    - Develop the frontend for **authentication form.**
    - We will proceed to the **development** part of our project.
    - Consider future revision and suggestions for improvement.
